On Demand Design
Materials List

To maintain an even playing field, the on demand design problem requires all teams use only the same set of starting materials, regardless of how many students are on each team. The following is a list of simple affordable art supplies to bring for your students to use when solving the on demand problem in *Architecture, Painting, Drawing, Illustration, Sculpture, Industrial Design, and Photography* categories. Please prepackage these same materials for **each team** to use.
